Description

W. W. Fereday was known for his scripturally sound, Christ-centered writings. In this book, the author presents a concise, pithy and informative look at the major miracles and parables of the Lord Jesus Christ as presented in the four Gospels. The reader will be well-rewarded in pursuing these studies. There are currently not a lot of books available upon these two interesting subjects and this book will help in filling that void. Read, reflect and enjoy !
