Description

The purpose of this booklet is to help establish a firm scripture foundation and to strengthen your walk with Christ. Building Blocks is designed as a study guide to help believers at all stages of their Christian walk to get back to the basic fundamentals of Christianity. It has been used in small groups as well as larger Bible studies. It is also very helpful as a one on one discipleship tool or even as a study guide for personal Bible study. You will find that Building Blocks is divided up into two major sections. The first section looks at the personal Christian walk, while the second part deals more with "assembly life." The second section can be used as a companion to brother Ray Campbell's book "Church of the Living God" which is also attainable from this publisher. 190 Pages – spiral bound, soft cover – Author: Tim Hadley
