Description

When Paul wrote to the saints at Philippi, he wrote a very personal letter to them. The book of Philippians presents a normal Christian life to us, but at the same time has many practical lessons to teach us. The theme of the book is two-fold.

First, joy permeates every chapter and teaches us how to be joyful in spite of the circumstances we may and ourselves in, or our interactions with each other on a daily basis.

The second theme in the book is unity. Peppered throughout the book is the thought of striving together, being of one mind, having the mind of Christ, with a special focus on getting along with each other in spite of our differences. The last chapter of Philippians teaches us how to have joy that defeats worry. In this daily devotional you will find practical help that will provide joy for the journey of life.
