Description

Some Bible scholars esteem Mr. Kelly's "Introductory Lecture Series" to be the simplest and most helpful of all his books. Perhaps it is because of his expressed intention - to trace in each inspired book the perfect design of the Spirit of God; and to explore how this design varies from book to book and yet results in a unified and magnificent revelation of God's mind and will.

Mr. Kelly was one of the remarkable men whom God used mightily to expound His precious Word.

When many of his ecclesiastical contemporaries had capitulated to biblical criticism which deeply undermined confidence in the inspired Word of God, Mr. Kelly remained true to "...the faith once for all delivered to the saints."

Mr. Kelly was an outstanding scholar who deeply loved the Word of God and the precious Savior of whom it speaks from cover to cover.
