Description

If someone told you that the Bible predicts that this world is headed for a time of terrible tribulation and a war whose proportions exceed any previous crisis this world has ever known; and that it could happen in our life-time, wouldn't you want to know more about it? The Bible not only foretells these things, but it also gives details of this coming war that are so explicit that the actual maneuvers of the various armies involved have been chronicled! This book outlines these things in an easy to read format. It contains over 1500 Scripture references, with 14 charts and diagrams. Some of the leading subjects are:

- The Lord's Coming
- The Beginning of Sorrows
- The Great Tribulation
- The Indignation
- The Appearing of Christ
- The Restoration of Christ
- The Millennium
- The Eternal State
